

## Instructions

1. Use the large square, small hexagon, and small heart pegboards for your project. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center. On a 3-D project such as this, **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make assembly difficult.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboards and ironing paper are reusable.

You may wish to use craft glue in the assembly of your project.

### Bead Color/# Needed:

- Red - 172
- Light Brown - 386
- Fairy Dust - 232
- Black - 68
- White - 102

**Bead Color/# Needed:**

-  Red - 8
-  Light Green - 80
-  Light Brown - 58
-  Fairy Dust - 20

## ASSEMBLY

Assemble your house by aligning the tabs and spaces on the house front, back, and sides at right angles to each other. The roof, chimney, and fence go together in the same way.

You may want to use craft glue to secure the pieces.

Glue the holly outside each window as shown in the picture below.

We put a piece of cotton in the chimney to look like smoke.

Place the lollipop fence as desired. You can create a winter scene with artificial snow and a painted backdrop for a festive look!
