

Instructions

1. Use the small hexagon pegboard for your projects. If you're using a clear pegboard, slide the actual-size pattern underneath it. Place all the beads for the design.
2. Cover the completed design with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly. Ironed properly, the beads will still have an open center. On a 3-D project such as this, DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make assembly difficult.
3. Once the design is cool, peel off the ironing paper. Lift your design from the pegboard; flip the design over and repeat step #2. Your pegboard and ironing paper are reusable.

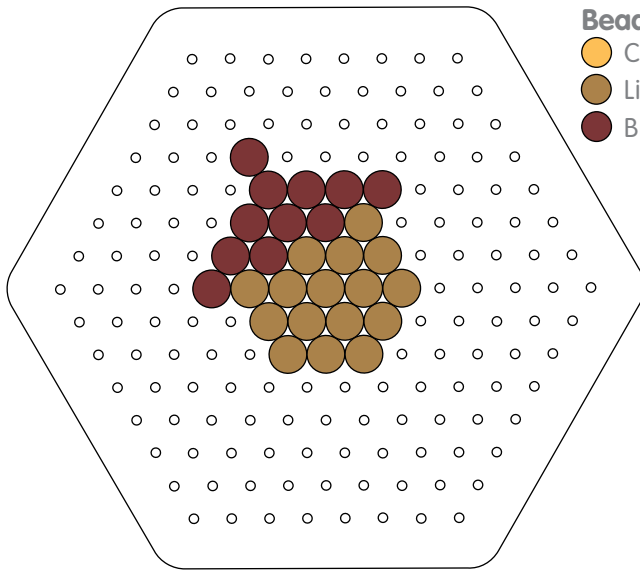

You will also need matching chenille stems and cardstock to complete your projects.

ASSEMBLY

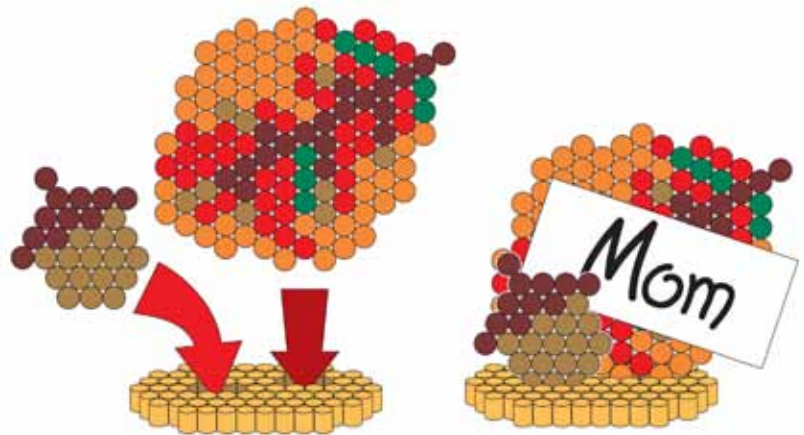

(Makes 4 leaves and 1 acorn stand)

Napkin Rings or Mug Ties

Carefully thread a chenille stem through the holes of the beads, wrap the ends around the napkin or mug handle, then twist closed. Add some decorative curls by wrapping the ends around a pencil.

Placecard Holders

Insert the acorn and leaf pieces into the stand as shown. On the cardstock, write the name, trim to the desired size, and slip between the leaf and acorn.

You can also use the leaves as a knife or spoon rest, or extra loose decorations for the table.
