HOTDOG ASSEMBLY:

1. Bun: Align then glue the Bun #1 layers together. Aligning the top rows, add a #2 piece on each end, then a #3 piece.
2. Hotdog: Glue the Hotdog #1 layers together in a similar manner, rotating the layers a half bead to create a zigzag of "mustard" with the yellow bead. Add four #2 pieces on each end, then a #3 piece.
3. Glue the hotdog onto the bun, then glue loose beads of white, red, pastel green, and dark green to look like onions and relish.

Fusing Instructions—Only Adults Iron

1. Place your peg board on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the peg board. In a circular motion, begin to iron the project. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

Note: Beads need heat for about 10-20 seconds per side to fuse evenly. Depending on the size of the project, additional heating time may be required. Since you are working on a 3-D project, DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make assembly more challenging.

Bead Color/# Needed:

- Dark Green - 96
