## Instructions

1. Place your beads on the pegboards as shown. If you are using a clear pegboard, slide the actual-size pattern underneath it.
2. Ask an adult to fuse your designs and assist with assembly—see page 2 for further instructions.

### Bead Color:

- Pastel Lavender
- Purple
- Dark Grey

**Spider's Eyes: Work these in the center of the large circle pegboard.**

**Fusing Instructions—Only Adults Iron**

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

**NOTE:** Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make any assembly you do with your project more challenging.

**ASSEMBLY—Adult assistance may be needed.**

1. **EYES and MOUTH:** Use 10" lengths of wire to attach the monster's eyes and mouth. Coil the wire into a spring by wrapping it around your finger a few times, keeping the ends straight. Working through a bead in the black area of the eye piece, insert one end of the wire from back to front. Bend the wire end around to the back of the eye piece. Insert the other end of the wire through a bead in the monster's head in the desired position and bend over to secure. Repeat for the other eye and the mouth.
2. **SPIDER:** Use short pieces of wire to attach the spider's eyes to its body, then the body to the top of the monster's head. Press the self-adhesive wiggly eyes onto the spider's eye pieces.
3. **HANGER:** Using a 24" length of wire, make a long coil. Attach to each side of the monster's head through the center of a bead.
