

You will need:

Pegboard:

Large square

Other:

Black thread

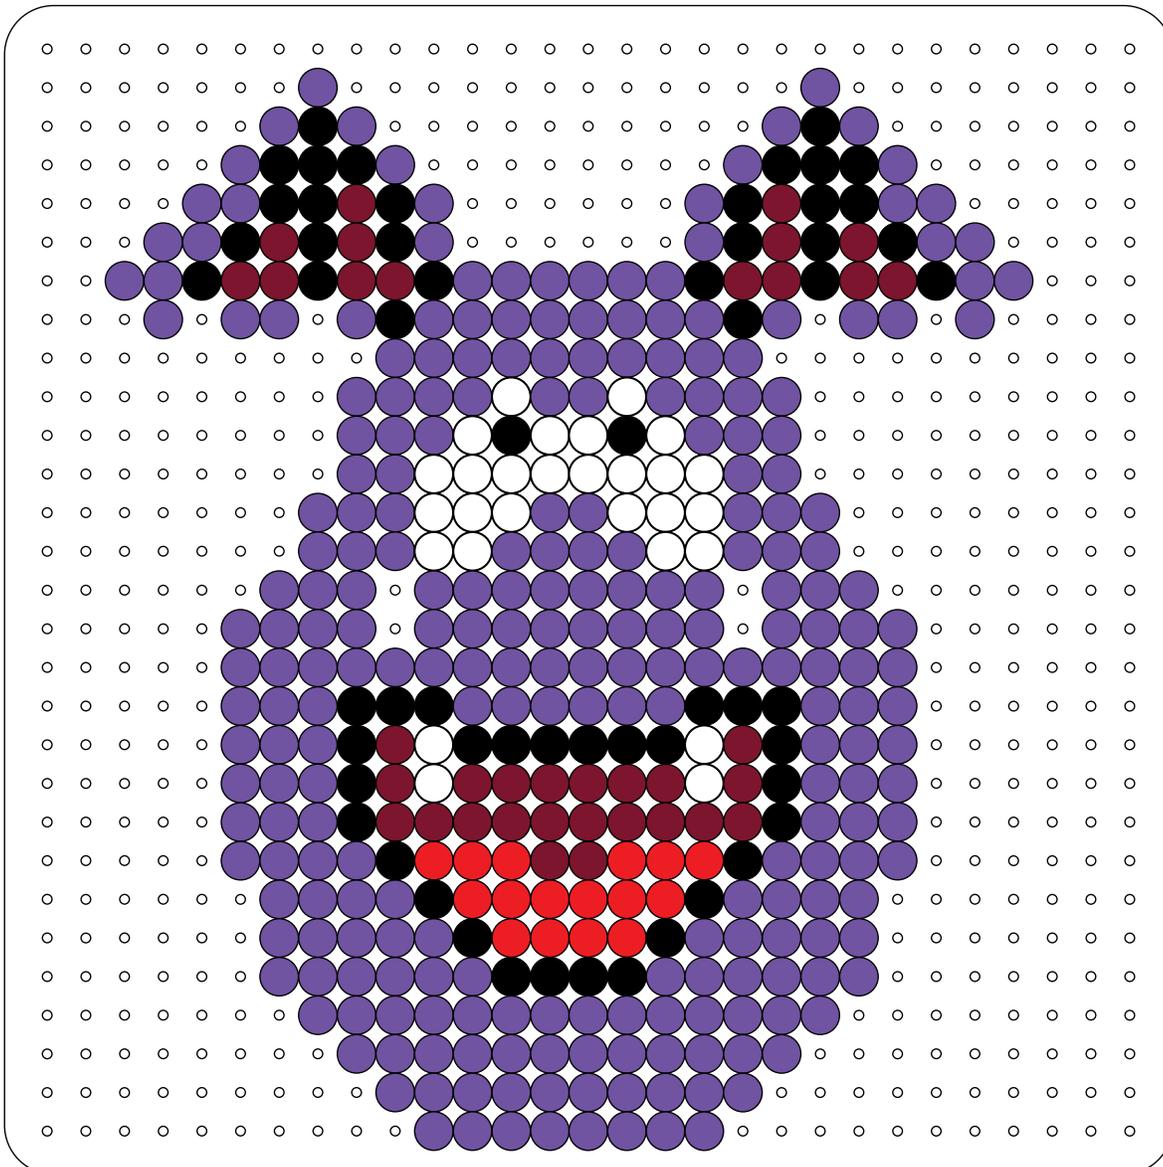

Bead Colors:

- Purple - 578
- Black - 248
- Cranapple - 200
- Red - 16
- White - 34

Instructions

1. Place your beads on the pegboards as shown. If you are using a clear pegboard, slide the actual-size pattern underneath it.
2. Ask an adult to fuse your designs—see Fusing Instructions on page 2.
3. To assemble the bat, see instructions on page 3.

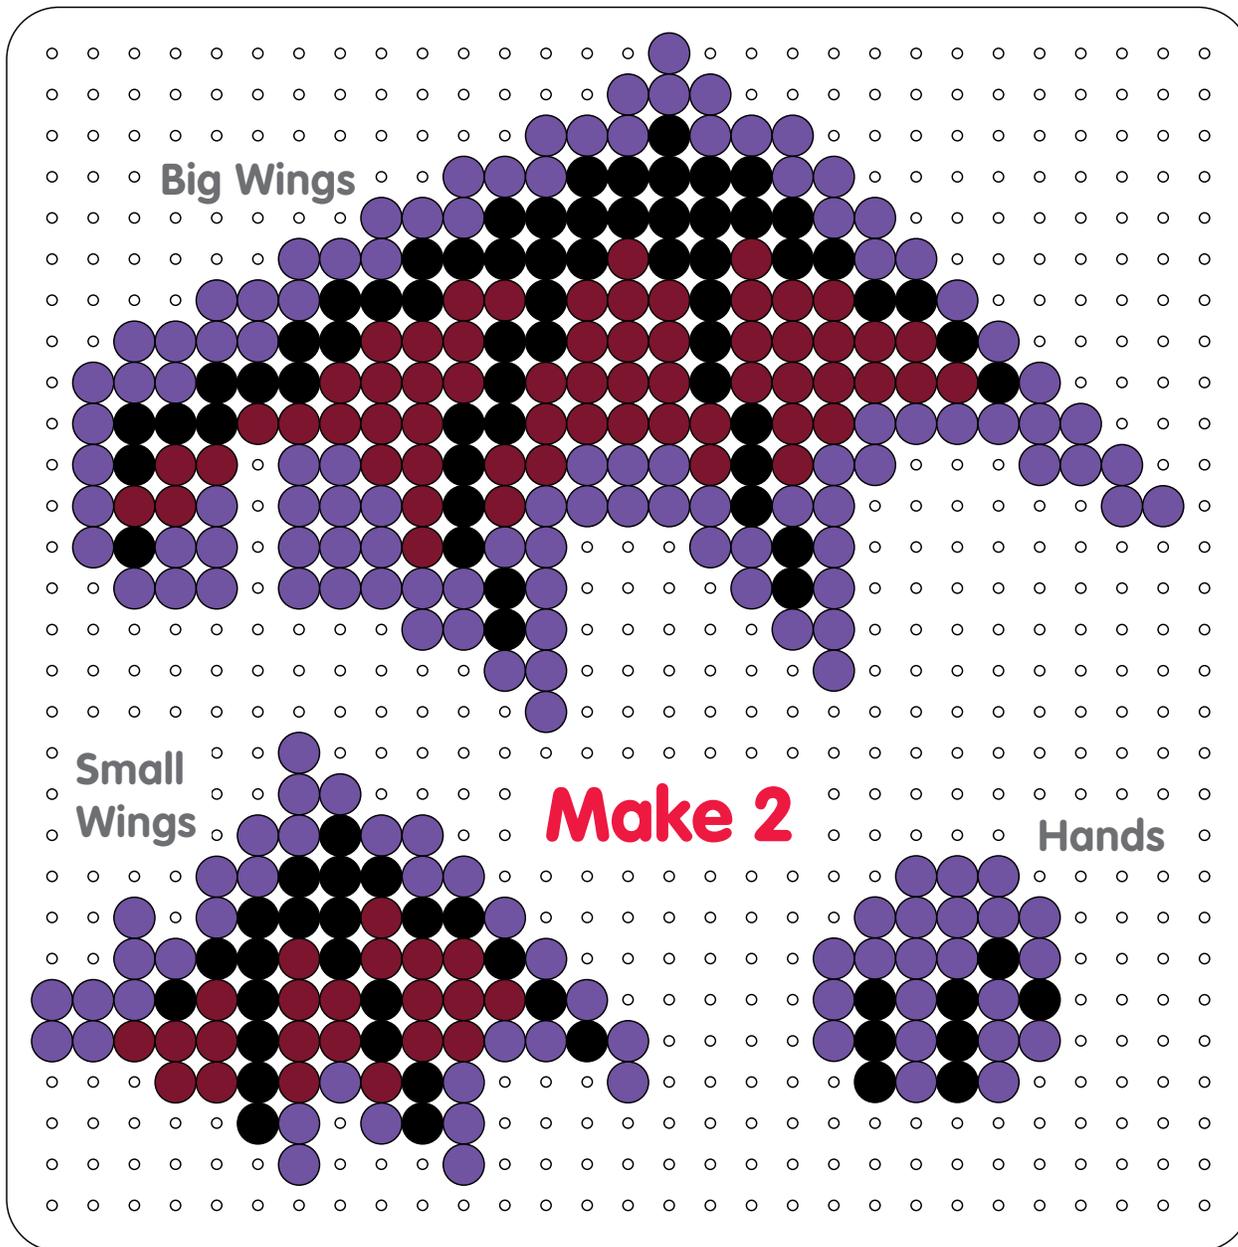

Tip: Design your own unique project by changing the bead colors.

Body

Bead Colors:

- Purple
- Black
- Cranapple
- Red
- White

Bead Colors:

-  Purple
-  Black
-  Cranapple

Fusing Instructions—Only Adults Iron

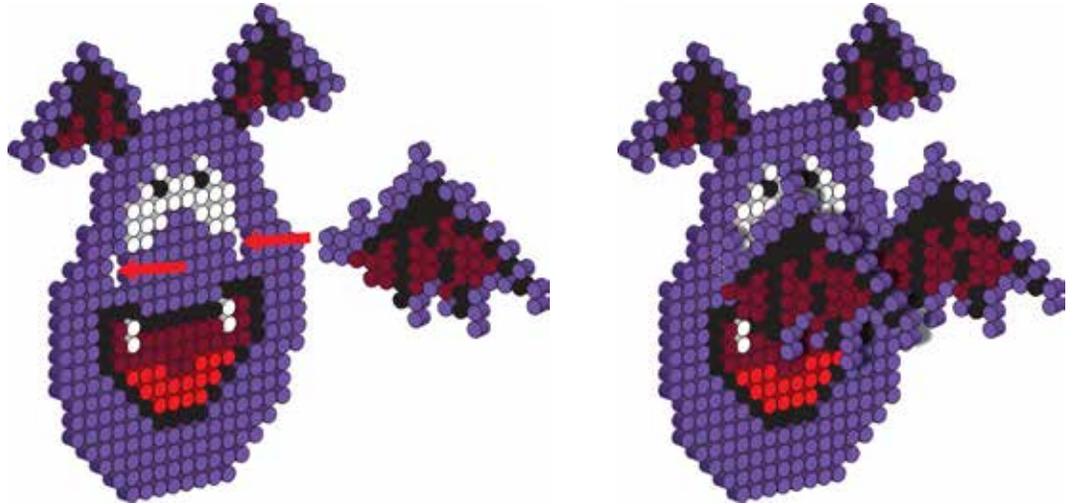

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. **DO NOT OVER-IRON** the beads as it will make the centers of the beads close and can make any assembly you do with your project more challenging.

Assembly Instructions

1. On the back of the bat's head, insert the small wings into the slots under the eyes.

2. Slide the big wings onto the small wings aligning the slots.
3. Cut 2 pieces of thread about 3" long.
4. Tie the pieces to the sides of the head as shown.
5. Thread 4 purple and 3 white beads onto each piece of thread, and finish by tying onto the hands.
6. Cut a longer piece of thread for a hanger and tie it to the top of the bat's head.
