Instructions

1. Create three Minion characters from the Despicable Me Pattern Pad by placing your beads on the pegboards as shown by the patterns. If you are using a clear pegboard, slide the actual-size pattern underneath it.
2. To create the photo frame, connect 2 large square pegboards vertically as shown on the next page. Place your beads.
3. Ask an adult to fuse your designs—see bottom for further instructions.
4. Assembly: Choose a message for your frame from the ones at left, or write a message of your own on the blank using a marker. Cut it out and tape it to the back of the frame. Cut a photo to 4 3/4" x 3-3/8" and attach with tape in the same way.
5. Glue the Minion characters in place as desired. Secure the frame stand on the back of the frame.

Fusing Instructions—Only Adults Iron

1. Place your pegboard on a flat, heat-safe surface.
2. Set a household iron to the medium setting. Place ironing paper over the pegboard. In a circular motion, begin to iron the project. Do not press down with the iron. As the beads begin to fuse, you will see circles of the beads start to show through the paper. When ironed properly, the beads will still have an open center. Let the design cool.
3. Remove the paper and bead design from the peg board. Flip the design over to expose the non-fused side. Repeat step two. Let cool completely.

NOTE: Beads need heat for about 10-20 seconds per side to fuse evenly. Lift the paper occasionally to see how the beads are fusing. Depending on the size of the project, additional heating time may be required. DO NOT OVER-IRON the beads as it will make the centers of the beads close and can make the assembly you do with your project more challenging.
